

Invitation to the first Somerset Community Energy Forum

The Centre for Sustainable Energy (CSE) would like to invite you to their first **Community Energy Forum** for community groups in B&NES, Somerset and North Somerset.

Weds 7 October 2009 | 18.00 to 21.00 | Wells Town Hall
Light refreshments provided

There is **no charge** for this event, and it promises to be a stimulating evening of particular interest to groups who are interested in climate change and reducing their carbon emissions

Confirmed speakers include:

- Simon Roberts, *Chief Executive of CSE*
- Pete Capener, *Sustainable Energy Consultant and NESTA Communities Advisor*
- Louise Rutterford, *Green Communities*
- Denise Perrin, *Target 80*
- Steve Mewes, *Wedmore Green Group* and
- David Parkin, *Sustainable Axbridge Network*

This is an opportunity to **network and share lessons** with other community groups who are working towards reducing their carbon emissions. The evening will feature **break-out sessions** where you will be able to discuss key issues and find out how to access more support for your community.

If there is a subject you'd like to cover in the break-out sessions, or if your group would like to bring a display, please let us know.

There will also be room for community groups to showcase their work through **display stands**.

To **reserve your place**, please email kirsty.mitchell@cse.org.uk by Weds 30th September. Don't forget to include your full name, the name of the organisation you represent (if any) and any dietary requirements you have. *Places are limited so please book early to avoid disappointment.*

This event is free and funded through Warm Streets, a scheme funded by Scottish and Southern Energy and working in partnership with seven local authorities
